Art Unit: 1724

Prosecution before the Primary Examiner is hereby reopened, the Final Rejection dated June 16, 2005 is withdrawn, and the proposed amendment filed September 16, 2005 has been entered.

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 5, 6, 9, 10, 13, 14 and 17 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The term "said activated bacterial component" (claim 1, line 11) lacks antecedent basis in the claim, and is therefore indefinite. Also, this term appears to be misdescriptive in defining an antibacterial component. Furthermore, since claim 1 has been amended to recite the presence of inorganic silver in the antibacterial agent, the recitation that this antibacterial agent comprises at least one selected from the group consisting of silver and copper (claim 1, lines 8-9) is indefinite as to the limitation intended. Claims 2, 5, 6, 9, 10, 13, 14 and 17 depend from indefinite claim 1, and are therefore also indefinite.

Claims 1, 2, 5, 6, 9, 10, 13, 14 and 17 would be allowed if amended to overcome the above rejection under 35 U.S.C. § 112.
